Rules for Tournament Rounds on Tuesdays between January 6th and March 24th, 2026

Registration for tournaments will begin 2 hours prior to the tournament play periods and end 30 minutes prior to the end of the tournament play periods. (The last tournament round for each promotion period will start 30 minutes prior to the end of the tournament play.)

Contestants must report to the promotion area in the Skycatcher tournament area ten minutes before the assigned tournament round time with a valid picture ID and their Coeur Rewards card to qualify and play in the tournament.

Players compete against each other to win Extra Play Cash (EPC) prizes by accumulating the most points during a round of tournament machine play. Participants are randomly assigned to tournament machines and are given unlimited spins for a preset amount of time. It is not necessary to put money in the tournament machines. Players win points as they hit winning combinations or bonuses on the reels, and the more spins completed within the set time, the greater the chances are to enhance the total score.
